

Isar HE

High efficiency combination boiler

The Isar HE provides excellent performance reliability and ease of installation. It is a highly versatile unit with telescopic flue. The Isar HE is a reliable unit and provides domestic hot water on demand. The self-adjusting feature and alpha numeric diagnostic readout make this boiler and advanced and excellent unit. As it is Sedbuk rated A it reduces carbon footprint and gas consumption, saving you money on gas bills.

Features and benefits of Isar HE

- Range of outputs 24, 30 ,35 kW
- Choice of telescopic fluing options
- 1 year warranty
- Compact design and fits in a standard kitchen cupboard*
- Sedbuk rated A
- All the necessary safety requirements on a sealed system

*Please check kitchen cupboard prior to installation.

Replacing your old boiler with an A-rated boiler from Ideal is a great way to reduce your heating bills and help the environment. Our 'A' rated high efficiency combis are over 90% efficient and could save you around £235 every year on running costs**, in addition to lowering your carbon footprint. With the launch of the Boiler Scrapage Scheme and rising fuel costs, there has never been a better time to upgrade your G-rated boiler.
